

A PERFECT ALLIANCE.

# REACH-DECLARATION

According to the definition in Article (3) of the REACH-Regulation, ODU is a producer of articles and consequently a downstream user. Therefore, we are not subject to the obligation to register chemicals.

As provided for by REACH, the substances we use to manufacture our products are without exception those for which we have been provided with sufficient information in the form of safety data sheets.

ODU affirms that it follows the REACH-Regulation updates and it compares these updates with the substance information we have on hand. The expansion of the Candidate List and the inclusion of substances in the Annex XIV of REACH receive special attention in this regard.

We hereby confirm that the products manufactured by ODU do not contain substances listed in Annex XIV in concentrations exceeding the permitted limiting value of 0.1 %.

Information about the substances in our products that are on the Candidate List can be found in the order documents.

The most recent updates of the Candidate List and Annex XIV can be found under the following links:

Candidate list: <https://echa.europa.eu/candidate-list-table>

Annex XIV: <https://echa.europa.eu/authorisation-list>

These statements are based on our current state of knowledge. We cannot issue a warranty or assume liability for factors that lie outside the state of our knowledge and control.
